Presidents Message

It is hard to believe that is already June and time for the annual AKCA Seminar. Before we know it the Fourth of July will be a memory and Labor Day will be around the corner. That means that the Show Planning must be accomplished quickly. With that said, members of the Exec Board met last evening and worked out most of the final details for the Show. So expect to see vendor and exhibitor applications on the web-site or in your mail in the very near future.

Here are some details that were confirmed: The number and types of Vendors will be limited and will be by invitation. We will have specific numbers of vendors selling fish, vendors with dry products, and vendors with non-koi items. Exhibitor fees will be a flat price for a tank, but each tank will have a specific load limit. A form will be provided with the application to calculate your fish load. We want to maintain the health of all fish at the Show. A Bonsai display will be part of this year's Show. Since we are not at the Arboretum where visitors could see the adjacent Bonsai displays, we decided to bring a display to Virginia. We are hoping to also have a vendor to offer items for sale. This year we are looking for Trophy sponsors. In order to keep the cost of the exhibitors to a minimum, we need support in covering costs for other items. I

encourage members to look at the price list of the trophies and pledge to sponsor the award. Pick your favorite variety and sign-up. Contact Jim North to sponsor.

The Club has worked out the details of obtaining additional show tanks for the Show with the Atlanta Koi Club. I will be driving down to pick up additional tanks. We were concerned that we would be too limited in the number of Exhibitor Tanks we could offer, and did not want to turn anyone away from what we believe will be a great show. So---Bring as many fish as you can, the more you bring the better chances of winning. We always have categories where no awards are given for lack of participants. Lets Fill'em up!!! If you are receiving this newsletter, it is because you paid your membership fees for 2007. There are many members who have yet to submit their forms (and Check) and will miss out on the newsletter. Please discuss with others hobbyists about joining quickly. Our next meeting will be on July 15 at the Frady house at 2:00. Please plan on attending as we are planning on a speaker, details will be on the web-site as soon as he confirms. We will also have some door

prizes and a raffle. Come for the training, stay for the fellowship. We owe it to our fish to be the best Koi Keepers possible.

See you in July. I will be providing a recap of the AKCA Seminar at the next meeting and in the July newsletter. I should have some Club news to share then.

Together we make a difference,
Mike Frady

ZNA Potomac Koi Auction Results

For those of you that missed the auction we all had a really great time! The selection of koi was fantastic this year. In addition to what we brought in from Japan to sell we also had many koi that were donated by several ZNA Potomac members. There were also 3 larger koi brought with 25% of the sale from them going to the club. After all was said and done the club made roughly \$1300 in profit. This money will go to good use as it will be spent on the upcoming show in September.

This auction would not have been a success without all the wonderful ZNA Potomac members that came out to volunteer their time for this effort. A big thanks goes out to Mike and Carolyn Frady, Terri Janus, Margie Linn, Tom, Susan and Tammy Mackenzie, Jim and Carolina North, Chuck and Doris Poppe and finally Mike Walker!

We did have some koi leftover after the auction but they have all been sold.

Breakin' It Down: Showa

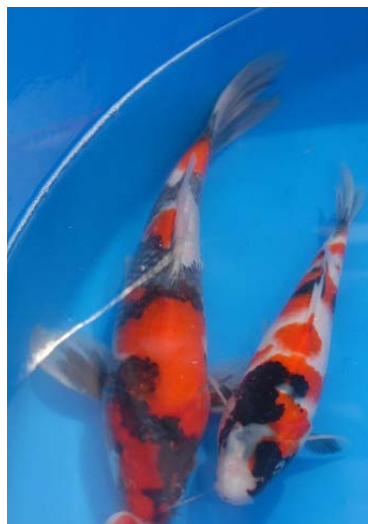

A showa-sanshoku is a three colored koi-red, white and black with a black skin base. Showas take time to develop into a finished koi with the three colors like lacquer.

A good showa, like the one in the example photo, will have good conformation, strong white, a balanced kohaku pattern, with well placed black that goes below the lateral line.

The face should have all 3 colors and the pectoral fins should have sumi at their joints (motoguro).

This showa is also kin rin with kin rin scales placed on its entire body.

Young developing showas

Same showa at the left only picture taken 6 months later. Note sumi and conformation development

- Well balanced hi (red)
- Well placed balanced sumi (black) that accents the shiro(white)
- Motoguro
- Strong hi pattern on head and shoulder
- All 3 colors on face

ZNA Potomac Website News!!!

Site News

Quality Koi trip pics were added since the last newsletter. The show section is starting to shape up as we now have the host hotel. Before the next newsletter all the entry forms will be available for our show. As a teaser I will be going to the AKCA seminar and photos from that trip should be in the next newsletter and will be on the website. Auction photos coming soon to the website! Please remember the newsletter will not be available on the website until at least a month after it is emailed or mailed out. Please make sure I have a current email address for you so you can get it on time.

Newsletter Web Extras

Since this newsletter is printed it would be difficult for you to use the links so go to www.znapotomac.org The links will be found by clicking on the month of the newsletter under the newsletter section on our site. For each newsletter I will comb a couple of the koi web forums and post links to various topics of discussion on koi. The first two links deal with koi health/water related issues and the second two discuss koi appreciation matters or water quality matters. The first link is about koi luster and ph and alkalinity. The second health link is about what you should keep in your koi medicine cabinet. The first appreciation/water quality link deals with the quality of US bred koi .The second DIY foam fractionator. I hope everyone finds these useful links. A couple tips on using forums. None of the links I post will be to spam sites or anything like that so please go ahead and create an account at these sites as they are free and it is the only way to view many of the photos at these sites. If you are an AOL user I recommend you use Internet Explorer when visiting koi sites as many of the features on these sites do not work with the AOL browser. Thanks and I'll see you on the web!

Would you like your pond listed at our clubs website? Please email me the information below with three digital photos of your pond and koi and I will list them for you on our website.

Classified Section

We have a bubble-bead filter that we will give away FREE. It's similar to the BBF-XS 6000, stands 53" high, 26" diameter, and has the inlet and outlet piping already attached. Its original cost, less the piping, was around \$1300 and the BBF-XS 6000 is about \$1200. We have changed to a different filter system and would just like to see this filter go to a place where it will be used. It's heavy, as in HEAVY! The beads are still in it and by this time are pretty well stuck together. It will take two men and a boy with a truck to move it. But it's free to anyone who wants it and will move it. Our phone number is (703)780-5328 and we have voice mail but are usually home. John Byer

Do you have something pond or koi related you would like to sell? List it here for the low price of \$5. Ads for free items are free. Ad will run until it sells! For ZNA Potomac Members only. *Thanks!*

Photos for the show announcement were taken by David Smothers with the exception of the 2005 GC. Photographer unknown.
